FO[®]3024-SV Efflorescence Remover

DESCRIPTION

FO[®]3024-SV Efflorescence Remover is a ready to use, heavy duty, odorless liquid that contains a new and unique salt that acts like an acid, which enables it to remove heavy build-up as well as aged efflorescence. FO[®]3024-SV removes and prevents the formation of efflorescence stains on a wide variety of stone, concrete, and masonry surfaces. It will efficiently remove efflorescence from vertical and horizontal surfaces, and can be used for exterior and interior applications. FO[®]3024-SV will provide coverage of approximately 400 square feet per gallon. Coverage will vary depending on the porosity of the surface being cleaned.

APPLICATIONS

Apply FO[®]3024-SV Efflorescence Remover with absorbent wipe, soft bristle brush, or portable hand sprayer. Allow FO[®]3024-SV to penetrate into surface area containing efflorescence for approximately 30 seconds for natural stone and concrete, and approximately 5-10 seconds for manufactured stone, then rinse off with garden hose or portable hand held sprayer until surface is clean. FO[®]3024-SV is recommended for use on all natural stone such as marble, granite, slate, travertine, and limestone. FO[®]3024-SV can also be used to remove efflorescence from manufactured stone and brick surfaces including porcelain, quarry, saltillo, terra cotta, cement pavers, concrete and other porous tile and grout where natural appearance is desired. Can be diluted water up to 25:1 or down to 1:1, or used concentrated with no mixing depending on the severity and age of the efflorescence to be removed.

FEATURES AND BENEFITS

- **User & Environmentally Friendlier vs. Hydrochloric Acid/No Fumes/No Obnoxious Odor**
- **Can Be Used In Confined Space Without Discomfort to User vs. HCL**
- **Removes Efflorescence Build-Up on New and Aged Surfaces**
- **Prevents Efflorescence from Forming**
- **Economical vs. HCL/ Water Dilutable Depending on Severity of Efflorescence**
- **Covers Up to 400 Square Feet Per Gallon**
- **Viscous for Penetration into Vertical and Horizontal Surfaces**
- **Can Be Applied to Exterior and Interior Surfaces**
- **Easily Applied by Wipe, Swab, or Spray**
- **Convenient Packaging in 4 x 1 Gallon Cases or 5 Gallon Containers**
