

FINE ORGANICS

FO[®] 3024-SV

DESCRIPTION: EFFLORESCENCE REMOVER

INGREDIENTS:

Organic Acid Salt
Ethoxylated Nonylphenol
Water

TSRN 64997500-5018p
CAS# 9016-45-9
CAS# 7732-18-5

FLAMMABILITY
(RED)

HEALTH
(BLUE)

REACTIVITY
(YELLOW)

Degree of Haz:
4 = Extreme
3 = High
2 = Moderate
1 = Slight
0 = Insignificant

SPECIAL HAZARD

SUGGESTED DIRECTIONS FOR USE:

To remove efflorescence from natural stone on both vertical and horizontal surfaces, apply product as concentrate with absorbent wipe, soft bristle brush, or portable hand sprayer. Allow FO 3024-SV to penetrate into surface area containing efflorescence for approximately 30 seconds to 1 minute, then thoroughly rinse with garden hose or portable hand sprayer until surface is clean. To remove a heavy build-up of more tenacious aged efflorescence from concrete and natural stone, follow procedure noted above, and use a metal tool such as a brick hammer, firm wire brush, or chisel to loosen the efflorescence then thoroughly rinse with water using a garden hose or portable sprayer until the surface is clean.

USES:

Recommended for use on:

- All natural stone such as marble, granite, slate, travertine, and limestone.
- Effective for interior and exterior applications.

COVERAGE:

One gallon of FO 3024 will cover approximately 400 square feet. Coverage will vary depending on the porosity of the surface.

CAUTION:

Safety goggles and face shield and rubber or nitrile gloves must be worn in accordance with OSHA Standard 1910.133 and ANSI Standard Z87.1-1968. May cause skin irritation and/or burns to eyes. Respirator not normally required. Maintain adequate ventilation. Do not take internally as ingestion may lead to severe pulmonary injury. Reasonable care and precautions when handling this material are strongly recommended. Remove and launder contaminated clothing before reuse. Vegetation and other surface areas such as walkways that are in proximity to where the product is being used should be covered.

CONDITIONS TO AVOID:

Contact with strong alkalis should be avoided in order to prevent a chemical reaction. Keep from freezing. Emptied containers may retain product residues (vapors or liquid). Observe all labeled hazard precautions.

LABEL IS IN ACCORDANCE WITH FEDERAL AND NEW JERSEY RIGHT TO KNOW LAWS

FIRST AID:

Wash areas of contact with generous amounts of water. Remove contaminated clothing and laundry before reuse. For eyes: Flush thoroughly with water for at least 15 minutes. Washing eyes within 1 minute is essential to achieve maximum effectiveness. If swallowed: Do not induce vomiting, give plenty of water. If overcome by inhalation: Remove to fresh air. Administer artificial respiration if breathing has stopped. Seek medical attention in any necessary instances.

SPILLAGE:

Add sand, earth or other suitable absorbent to spill area. Sweep up absorbent material and follow waste disposal methods below. Keep out of sewers and waterways.

WASTE DISPOSAL METHOD:

Dispose in accordance with all local, state and federal regulations. Disposal recommendations apply to the original material and its container and not any materials, which are a waste by-product of the user's operation.
